SIZE	THICKNESS	LENGTH
20 mm X 20 mm - 150 mm X 150 mm	1 mm - 3.5 mm	4 m - 12 m

ZINC COATING: 120 GSM - 300 GSM

How are Galvanized Pipes different from Black MS Pipes?

Ans: The Characteristics of Galvanized pipe is such that it is absolutely Rust Free, hence it does not loose its strength. The biggest advantage is that No paint works ever required.

What is Galvanizing of Pipes ?

Ans: Galvanizing is a technical process for rust proofing iron and steel by the application of a special zinc coating. Three of the most sought after processes for applying zinc to iron and steel are hot dip galvanizing, electro galvanizing, and zinc spraying. Ordinary Steel rusts (oxidizes/corrodes) when left unprotected in almost any environment. Applying a thin coating of zinc to steel is an effectual and cost-effective means to shield it from the menace of corrosion. Zinc coatings protect by providing both a physical barrier and cathodic protection to the underlying steel.

What are benefits of Galvanized Pipes ?

Ans: Chief benefit is Rust Free material resulting in boosted Strength. Another leading advantage is Presentation of the product itself, which looks striking with a clear finish forever.

How is the small difference in galvanized Pipes cost justified with large advantages ?

Ans: With zero paint cost to be incurred forever, Galvanized pipes truly induce savings over long term usage and eventually it creates a win win proposition.

In long term, why are Galvanized pipes beneficial ?

Ans: As an outcome of Homogeneous coating all through the Pipe, Galvanized pipes can easily withstand the brunt and fury of Nature and any mechanical deformation, without affecting their zinc coating to alter the parent material.

Why JYOTI GP-120 Galvanized pipes ?

Ans: Manufactured in one of it's kind most modern Plant with a par excellence product output. The brand itself carries a legacy of 20 years for providing Quality materials.

Where can one buy JYOTI GP-120 Galvanized pipes ?

Ans: Across North India , our dealers are present and they cater to majority of cities and towns. Soon the product will be available across other regions of the Nation.

Why are JYOTI GP-120 Pipes the Intelligent Choice?

Ans: Manufactured with the most stringent Quality Norms, and thereby producing a World Class Product for truly a World class customer experience. Focus on unparalleled service forms the basis of our ideology. Large production ensures a continuous supply with a variety of sizes. Our products conform to all established standards laid down and also our aim is to rapidly provide most advanced products to our Customers. All this makes JYOTI GP-120 the intelligent choice.
