PURPOSE

Accelerating India's growth by enabling Green Infrastructure.

MISSION

Innovation & Technology

By setting new benchmarks in current Status quo of Industry in respective category.

Customer Delight

By delivering substantial value for money in terms of Products and Services with cheerfulness.

Employees Augmentation

By nurturing abilities and enriching capabilities through compassion, Mentoring and Belongingness.

Preserving Relations

By valuing 'Win-Win' relationships with Stake Holders and Business Associates for longer term.

Sustainable Future

By giving back more than what we took from Society, Environment and Country at large.

CORE VALUES

Integrity

Excellence

Patriotism

Empowerment

Humility

Unity

PRODUCT OFFERINGS

GP Coils

Applications

- Automobile industry - Galvanized Coils & Sheets are used to produce air and oil filters, fuel and oil tanks, exhaust pipes etc.
- Light fittings
- Bicycle parts
- Agriculture Implements
- Fan Blades
- Furniture
- Solar Structure
- Cable Tray
- Purlins (PEB)
- Construction Industry
- Fabrication
- Scaffolding
- Sheet Metal Components

ADVANTAGE OF GP COIL

Resistance to Rusting

No Peel off while Bending

High Cohesion & Toughness

Recyclable

Up to 300 GSM coating can be delivered

Maximum Thickness range is 3.2 mm

Better surface finish, Glossy, Matt & Spangle

Durability

More Strength to Weight Ratio

GP COIL PRODUCT TECHNICAL DETAILS

Width

100 MM to 650 MM

Thickness Range

0.6 MM to 3.2 MM

Coil Id

508-510 MM

GSM Range

120 - 180 - 220 - 275 - 300 GSM

Raw Material

HR/CR Coil

Coil Weight

1.0 Mt - 7.0 Mt As Per Coil Width

Grade

210, 240, 310, 355 MPA
(Yield Stress) (Grade 1 To 5)

SERVICE OFFERINGS

Slitting

Steel Slitting is the process of cutting steel coils received from the steel mills into narrow widths as per the requirement of the customers.

Slitting lines at Madhav KRG Group are composed of high-precision slitters which provides our customers with a competitive edge in their market. The Slitting line is controlled by a highly automated system employing control desks, man machine interfaces.

Supply Chain Management

Madhav KRG Group provides Supply Chain Management facilities to all major OEMs.

Madhav KRG Group helps to streamline the customer's supply-side activities in order to maximize customer value so that he is able to gain competitive advantage in the marketplace.

IQMS (Integrated Quality Management System)

Quality is always our prime concern when it comes to delivering products; this is why we have established an IQMS in our company.

The IQMS in our company is responsible for the fulfillment of two converging goals - firstly, ensuring the quality of finished products, and secondly, enabling compliance with set standards in all the processes of manufacturing, from acquiring raw materials to delivering the finished product.

This advanced system guides us to adhere to the highest standards of quality in all aspects of manufacturing and helps us keep our processes optimized.

SEGMENTS WE SERVE

AUTOMOBILE

Madhav KRG Group has been a preferred steel supplier to most of the major automobile manufacturers and their vendors. From our experience of serving auto customers, we have developed competencies that are important for the industry.

PROJECT & FABRICATION

Madhav KRG Group is capable of processing Hi-tensile grades which are available in a wide range of thicknesses and widths to cater to this market.

AGRICULTURE IMPLEMENTS

Madhav KRG Group emerge as a pivotal contributor in the agriculture sector, offering a reliable, high performing and cost-effective solution for various needs within the farming industry. Their precision and adherence to stringent quality criteria make them a preferred choice for ensuring the longevity and efficiency of the product

SOLAR

Madhav KRG Group play a vital role in the solar industry, particularly in manufacturing structures dedicated to mounting solar panels. Engineered with a focus on durability.

LIFTING & EXCAVATION

Madhav KRG Group has been providing customized solutions to this segment to optimise the raw material usage and maximizing yield.

GENERAL ENGINEERING

Madhav KRG Group offers different grades in customized sizes to different user sub-segments such as storage solutions, lifts & excavators, furniture, bus body etc. Tight tolerances are maintained to maximize the yield thereby reducing wastage.

JYOTI SHIKSHA SANKALP

When it comes to knowledge, we celebrate more than just academic achievements; we celebrate the promising potential of a brighter future.

JYOTI Shiksha Sankalp, believes in nurturing minds, igniting dreams, and empowering future leaders.

We take immense pride in honouring our exceptional scholars who have excelled in their studies and have become an inspiration for others. To the top three performers of final exams, we extend gifts that mirror the brilliance of their achievements.

Over 1000 students have been celebrated for their dedication, hard work, and extraordinary performance.

Here's to the scholars, the achievers, and the leaders of tomorrow!

Educate to Prosper
